

**2:1 "LP" MINERAL
MEDICATED
For Beef Cattle on Pasture
For Ruminants Only**

ACTIVE DRUG INGREDIENT

Lasalocid 1428 gr./ton
Pasture Cattle (Slaughter, Stocker, Feeder Cattle, and Dairy and Beef Replacement Heifers) - For increased rate of weight gain and for control of coccidiosis caused by Eimeria Bovis and Eimeria Zuernii.

Note: Coccidiosis may occur when young pasture cattle are co-mingled with adult cattle passing coccidial oocysts.

Caution: Do not allow horses or other equines access to premixes or supplements containing lasalocid, as ingestion may be fatal.

The safety of lasalocid in unapproved species has not been established.

Feeding undiluted or mixing errors resulting in excessive concentrations of lasalocid could be fatal to cattle and sheep.

Warning: When mixing and handling lasalocid premix, use protective clothing, impervious gloves, and a dust mask. Avoid contact with eyes. Operators should wash thoroughly with soap and water after handling.

GUARANTEED ANALYSIS

Calcium, not less than 13.00%
Calcium, not more than 15.00%
Phosphorus, not less than 7.50%
Salt, not less than 14.00%
Salt, not more than 16.00%
Potassium, not less than 1.85%
Magnesium, not less than 2.50%
Zinc, not less than 4500 ppm
Copper, not less than 1500 ppm
Selenium, not less than 30 ppm
Vitamin A, not less than 100,000 I.U./lb.
Vitamin D, not less than 40,000 I.U./lb.

Ingredients: Calcium carbonate, dicalcium phosphate, monocalcium phosphate, salt, cane molasses, potassium sulfate, magnesium sulfate, sulfur, magnesium oxide, potassium chloride, iron oxide, manganese sulfate, zinc sulfate, copper sulfate, ethylenediamine dihydriodide, cobalt sulfate, sodium selenite, vitamin A supplement, vitamin D3 supplement, vitamin E supplement and artificial flavor.

FEEDING DIRECTIONS

FOR INCREASED RATE OF WEIGHT GAIN: Feed at the rate of not less than 60 mg. nor more than 200 mg. per head per day.

FOR CONTROL OF COCCIDIOSIS: Hand feed continuously at the rate of 1 mg. lasalocid per 2.2 pounds of body weight per day in cattle up to 800 pounds (maximum 360 mg. per day).
