Total Sugars, (as invert), min.....	35.00%

Net Weight 125 lb (56.81 kg)

Manufactured For:
Lyssy & Eckel, L.P.
P.O. Box 128
Poth, TX 78147

INGREDIENTS

Cane Molasses, Vegetable Oil, Cottonseed Meal, Hydrolyzed Feather Meal, Urea, Dicalcium Phosphate, Monocalcium Phosphate, Calcium Carbonate, Magnesium Oxide, Vitamin A Acetate, Vitamin D Supplement, Vitamin E Supplement, Cobalt Sulfate, Copper Sulfate, Ethylenediamine Dihydriodide, Manganous Sulfate, Sodium Selenite, Zinc Sulfate.

FEEDING RECOMMENDATIONS

1. Feed one tub per 20-25 head of cattle and at least 2 tubs per pasture to ensure adequate intake by younger, timid animals.
2. Place tubs within 100 feet of where animals congregate (loafing, grazing, feeding and watering areas).
3. Feed tubs continuously along with plentiful sources of forage and fresh clean water.
4. Cattle will consume approximately 1/2 to 1 pound of this supplement per head daily.
5. This product does not contain added salt, therefore, supplemental salt should be offered at all times.
6. A free-choice mineral program may be offered in addition to the 28-7 tub to help meet mineral and vitamin needs.

INTRODUCTORY PERIOD: During the first week of use, place the tubs within 100 feet of loafing and/or watering areas. As cattle become accustomed to tubs' presence to maintain proper consumption, some repositioning may be necessary, closer to increase, further to decrease. Do not provide free access to starved animals.

IMPORTANT: Consumption rate depends on location of the tubs with respect to loafing, grazing, feeding and/or watering areas. Also consider animal condition, forage quality and quantity, and seasonal weather conditions. If over consumption occurs for more than two weeks, despite tub repositioning, remove tubs and evaluate the overall feeding program.

CAUTION: Do not feed to sheep or allow sheep to have access to this product. This product contains high levels of supplemental copper.
